

creating art from fibers pdf

Spinning is an ancient textile art in which plant, animal or synthetic fibres are drawn out and twisted together to form yarn. For thousands of years, fibre was spun by hand using simple tools, the spindle and distaff. It was only with the invention of the spinning wheel in India, and its subsequent introduction to Europe in the High Middle Ages, that the output of individual spinners ...

Hand spinning - Wikipedia

A textile is a flexible material consisting of a network of natural or artificial fibres (yarn or thread). Yarn is produced by spinning raw fibres of wool, flax, cotton, hemp, or other materials to produce long strands. Textiles are formed by weaving, knitting, crocheting, knotting, felting, or braiding.. The related words "fabric" and "cloth" are often used in textile assembly trades (such as ...
