Abstract Based on a larger longitudinal project of family stress and children's development, the primary objective of the current study was to investigate the relationships between parenting styles and

The Influence of Parenting Styles on Children's Cognitive

Research has shown how important YOU are to your children and how as a dad the things you do, and keep on doing, really count, whether you live with them, or you are a single dad and are only able to see them once a month, once a week or more, what you do really matters. This site is dedicated to all dads but will be of special relevance to the single dad.
