

### **data integration using sap pdf**

SAP BusinessObjects Data Integrator maximizes data integration performance by intelligently pushing the processing down to the database or mainframe platforms. For example, the software will leverage your database server to aggregate functions at the source level without moving the data to the SAP BusinessObjects Data Integrator server.

We are migrating "Contracts" data from a legacy procurement system to SAP SRM. Some of the contracts have text data stored in tables which need to be formatted and copied to PDF files and uploaded as attachments to the corresponding contract created in SRM. We are able to format the text data as required and write it to text/HTML files.
