he dead fish were one of the first signs. In July 2002, scientists with the Oregon Department of Fish and Wild - life found unusual numbers of bottom-feeding sculpin lying lifeless on the ocean floor, which would normally be teeming with life. Crabs were also dying, and they washed up onto some beaches in large numbers (pictured).

Dead In The Water (1998) About book: My second Stone Barrington novel, and this one was better than the first. I think it has been a while since I read a novel from the late 90s (my other vice - dystopia, is not that olda genre, at least the more recent YA series), so I really enjoyed the faxes, looking for payphones, etc. the characters had to engage in to get in touch with each other.

And while Nancy Holder's Dead in the Water doesn't quite reach the levels of The Cipher, it is still a very good, and involving, story. Like Kathe Koja's debut novel, Water is psychologically demanding and does not give up all its secrets at once . . . or even when the final page is turned.
