Amethyst is a purple variety of quartz (SiO<sub>2</sub>) and owes its violet color to irradiation, iron impurities (in some cases in conjunction with transition element impurities), and the presence of trace elements, which result in complex crystal lattice substitutions. The hardness of the mineral is the same as quartz, thus it is suitable for use in jewelry. ...

I have no problem with the church or its members maximizing the benefit of the tax code, my problem lies with the tax code. It makes sense that mission presidents should be paid, many of them are still in the middle of their careers when they leave for 3 years and it can be difficult to be unavailable to a client/employer for that amount of time and expect to pick back up where they left off.

I wanted to share my story about what happened when I refused my tetanus vaccine after having cut myself with a knife at home. I want to share this story not as an example of what will or will not happen every time, but more so as an example of how itâ€™s important we stay open minded and question things before we blindly accept them.
