Social justice is a concept of fair and just relations between the individual and society. This is measured by  
the explicit and tacit terms for the distribution of wealth, opportunities for personal activity, and social  
privileges. In Western as well as in older Asian cultures, the concept of social justice has often referred to the  
process of ensuring that individuals fulfill their societal ...

In its most basic sense, multimodality is a theory of communication and social semiotics. Multimodality  
describes communication practices in terms of the textual, aural, linguistic, spatial, and visual resources - or  
modes - used to compose messages. Where media are concerned, multimodality is the use of several modes  
(media) to create a single artifact.

Recess is at the heart of a vigorous debate over the role of schools in promoting the optimal development of  
the whole child. A growing trend toward reallocating time in school to accentuate the more academic subjects  
has put this important facet of a child's school day at risk. Recess serves as a necessary break from the  
rigors of concentrated, academic challenges in the classroom.

Abstract. Sustainability is a critical business focus, and sustainable project management requires looking at projects in a whole new way. For too long, project managers have worked on their projects as if they were islands, unrelated to organizational strategy and governance and unrelated to the community at large.

Sustainable development can be seen as a "best fit" of the built environment to the natural environment. More accurately, it is the process of planning, designing and constructing in a way to reduce the overall environmental burden.. As the human population grows so does the the total consumption, material and energy.

Developmentally appropriate practices like play-based learning are valuable for strengthening many areas of development and learning. This topic aims to show how play-based learning can help support young children's learning of social-emotional skills, general cognitive development, and self-regulation abilities.

In our modern economy, innovation is prized socially and rewarded financially. But how do you generate good new ideas? How do you tell which ideas are good? And how do you execute to make them real?Wharton professor Adam Grant addresses these questions in *Originals: How Non-Conformists Move the World*. A bestseller like his first book *Give and Take*, *Originals* studies the habits of highly ...

*12 Rules for Life* is a collection of life principles that, if followed, are meant to improve your life. It reached the #1 spot on Amazon's bestsellers list, and clearly it resonates with a lot of people. Its author (Jordan Peterson, a clinical psychologist and U Toronto professor) argues that modern secularism and reliance on science has left a void in answers to important existential ...
