

diptychs pdf

A diptych (/ ˈdɪptɪk /; from the Greek δίπτυχον, di "two" + πτυχή "fold") is any object with two flat plates attached at a hinge. For example, the standard notebook and school exercise book of the ancient world was a diptych consisting of a pair of such plates that contained a recessed space filled with wax. Writing was accomplished by scratching the wax surface with a stylus.

Diptych - Wikipedia

The triptych form arises from early Christian art, and was a popular standard format for altar paintings from the Middle Ages onwards. Its geographical range was from the eastern Byzantine churches to the Celtic churches in the west. During the Byzantine period, triptychs were often used for private devotional use, along with other relics such as icons.
