A volumetric display device is a graphic display device that forms a visual representation of an object in three physical dimensions, as opposed to the planar image of traditional screens that simulate depth through a number of different visual effects. One definition offered by pioneers in the field is that volumetric displays create 3D imagery via the emission, scattering, or relaying of ...

The Standards for Commercial Support ensure that accredited CME serves the interest of patients and offers clinicians a protected space to learn and teach without commercial influence. To comply with the Standards, providers must deliver CME that is independent, based on valid content, and free of commercial bias.

A point-of-sale display (POS display) is a specialized form of sales promotion that is found near, on, or next to a checkout counter (the "point of sale"). They are intended to draw the customers' attention to products, which may be new products, or on special offer, and are also used to promote special events, e.g. seasonal or holiday-time sales.
