

east african reptiles and pdf

Like other state symbols, a state reptile is intended to show state pride. The designation has no economic or wildlife protection effect. States justify their choice of state reptiles, with differing rationales, in designating legislation and on websites:

List of U.S. state reptiles - Wikipedia

This is a list of reptiles which are found in the U.S. state of Florida. This list includes both native and introduced species. Introduced species are put on this list only if they have an established population (large breeding population, numerous specimens caught, invasive, etc.). Three out of the four orders of reptiles can be found in Florida, with the Tuatara order being absent.

List of reptiles of Florida - Wikipedia

A new perspective on global reptile pet trade based on key expert testimony from around the world – Many reptile species controlled under current policies remain illegally/unsustainably traded to supply the international reptile pet market, with rare and endemic species most threatened.

Trade in live reptiles, its impact on wild populations

The African rock python is found throughout almost the whole of sub-Saharan Africa , from Senegal east to Ethiopia and Somalia and south to Namibia and South Africa . Python sebae sebae ranges across central and western Africa, while Python sebae natalensis has a more eastern and southerly range, from southern Kenya to South Africa .
